

# Biofuel Express **Insight**

Sustainability Made Easy

# Sustainability documentation in a brand-new league

With **Biofuel Express Insight**, you gain access to the market's leading documentation portal for climate reporting, providing the right tool to measure and achieve your climate and environmental goals in alignment with your ESG reporting or Science Based Targets.

## What You Need We Provide

- ✔ **Overview of Fuel Consumption**  
Gain a comprehensive understanding of your fuel consumption with a user-friendly interface that offers real-time insights.
- ✔ **Total CO<sub>2</sub> Reduction Calculation**  
Navigate through the intricacies of CO<sub>2</sub> reduction effortlessly, providing a clear picture of your environmental impact.
- ✔ **Insight into Raw Materials and Origin**  
Trace the journey of raw materials, understanding their origin and contributing to a supply chain characterized by transparency.
- ✔ **Easy Sustainability Report Downloads**  
Accessing valid sustainability reports has never been easier. Download professional certificates showcasing your company's commitment to renewable products and their impact on CO<sub>2</sub> reduction.

Biofuel Express Insight is the first customer portal in the Nordic region, developed to document the CO<sub>2</sub> reduction for biofuels. With the increased requirements for documentation of companies' CO<sub>2</sub> footprint, it is essential to present documentation as part of ESG reporting or in accordance with Science Based Targets. This helps to provide insight for all stakeholders about the company's results, progress, and ambitions.

### Download sustainability reports

It is easy to download your company's sustainability certificates, which are professionally set up and which can be used both internally and externally. Here it will be illustrated which renewable products your company has consumed together with used feedstocks and their origin. The volumes and the CO<sub>2</sub> reduction in percentage will also be stated in the report.

The portal's comprehensive dashboard provides a quick overview of the total fuel consumption, CO<sub>2</sub>eq emissions reduced compared to ordinary diesel as well as in relation to yearly average emissions of personal cars and persons. It is also possible to gain insight into fuel consumption all the way down to the driver and depot level.

### ISCC certified products and process

Biofuel Express' products are of the highest quality and help to limit emissions of CO<sub>2</sub> into the atmosphere. In order to ensure transparency around the CO<sub>2</sub> emissions for the fuel life cycle, the products are ISCC-certified. The ISCC certification is one of the world's leading certification systems that seeks to create transparency around sustainable solutions so that raw materials can be traced throughout the supply chain. In addition, it is your guarantee that the products do not contribute to the deforestation leading to loss of biodiversity.

With the Biofuel Express Insight-portal Biofuel Express has stepped up their game. I wish that other suppliers would also be able to provide such quality of data. The portal has become an essential tool for our group, and it is widely used across various functions and geographical areas - from purchasing, to business controllers, fuel managers, and of course - the sustainability department."

- Biofuel Express customer

Biofuel Express is a leading distributor of 100% fossil-free biofuels such as HVO Renewable Diesel and B100 Biodiesel RME Premium. Our primary focus is the 100% biofuel market. We are passionate about the green environmental impact of sustainable fuel.

Biofuel Express specializes in providing advice and calculating the benefits of fossil fuels. This makes us the right partner for you if you want to transition to 100% fossil-free operation of your diesel-powered vehicles.

For the past 15 years, we have specialized in converting fleets and equipment for refueling buses, trucks, and cars from regular diesel to 100% fossil-free operation.

Our market-leading, high-quality products can be refueled directly at our stations in Sweden and Denmark or delivered to your own tanks. Biofuel Express is your guarantee of reliable distribution.

YOUR SUPPLIER OF FOSSIL FREE FUEL
